Minutes Thursday 20/05 - Team Standup

Date : Thursday 20/05/21, 8:30-9:30pm
Attendees : James Cleaver, Md Ruhul Amin Sarker, Peter Morian, Jittinun (Nee) Trairattanasirikul

Minutes

- Onehot encoding
  - Regression use onehot encoding
  - LSTM doesn't use onehot encoding
- Train/test dataset
  - Don't split
- Model - try both
  - GRU
  - LSTM
- Look into auto commit
  - Colab => Github
  - Drive => Github
- Data
  - PV data from Canterbury postcode, divide by total install units at the time of the data series (same postcode)
  - Per hour total generated for the Capacity of Canterbury => per hour total per unit of capacity so we can then multiply by total state capacity to get a model for PV generation

- Action
  - Github commits
    - Links to Colb and Drive - Nee
    - Minutes of all the meetings - Nee
    - Code - Nee
  - Review Roy Hyndman's book
